

Code-Layout, Readability and Reusability

Date	01 October 2026
Team ID	SWTID-2026-1564
Project Name	Courier Management System
Maximum Marks	5 Marks

Code Layout Checklist:

This document evaluates the structure, readability and reusability of the CMS configuration (objects, validation formulas and Flow).

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Validation formulas written with consistent layout (AND/ISPICKVAL on separate lines)
2	Proper File Structure	Files and folders are logically organized	Yes	One object per business entity; tabs and page layouts grouped per object
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Field API names such as Weight__c, Price__c, Expected_Date__c
4	Function / Method Names	Functions are descriptively named	Yes	Rules and flow named by purpose, e.g. Delivery Update Status Flow
5	Code Comments	Inline and block comments explain logic	Partial	Rule descriptions and error messages explain intent; no inline comments needed
6	Modular Design	Code is split into reusable functions/modules	Yes	Separate objects, one Flow, reusable reports
7	No Redundant Code	Duplicate or unused code is removed	Yes	No duplicate validation rules or fields
8	Error Handling	Exceptions and errors are handled gracefully	Yes	User-friendly error messages for each validation rule

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Validation rule formulas (length / positive-value checks)	Salesforce formula	Customer, Shipment, Delivery Agent, Branch	High

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
2	Delivery Update record-triggered Flow	Salesforce Flow	Any status-sync scenario	Medium
3	Shipment Status Summary report	Salesforce Reports	Dashboard donut chart	High
4	Page layout section pattern	Salesforce Page Layouts	All six objects	High
5	Profiles and role hierarchy	Salesforce Security	All users	High
